

The background of the entire image is a delicate, light blue illustration of tulips. The flowers are in various stages of bloom, with some fully open and others as buds. The stems are thin and elegant, with some leaves visible. The overall style is soft and artistic, with a monochromatic blue palette.

HKBC – English Ministry

6 – 12 April 2020

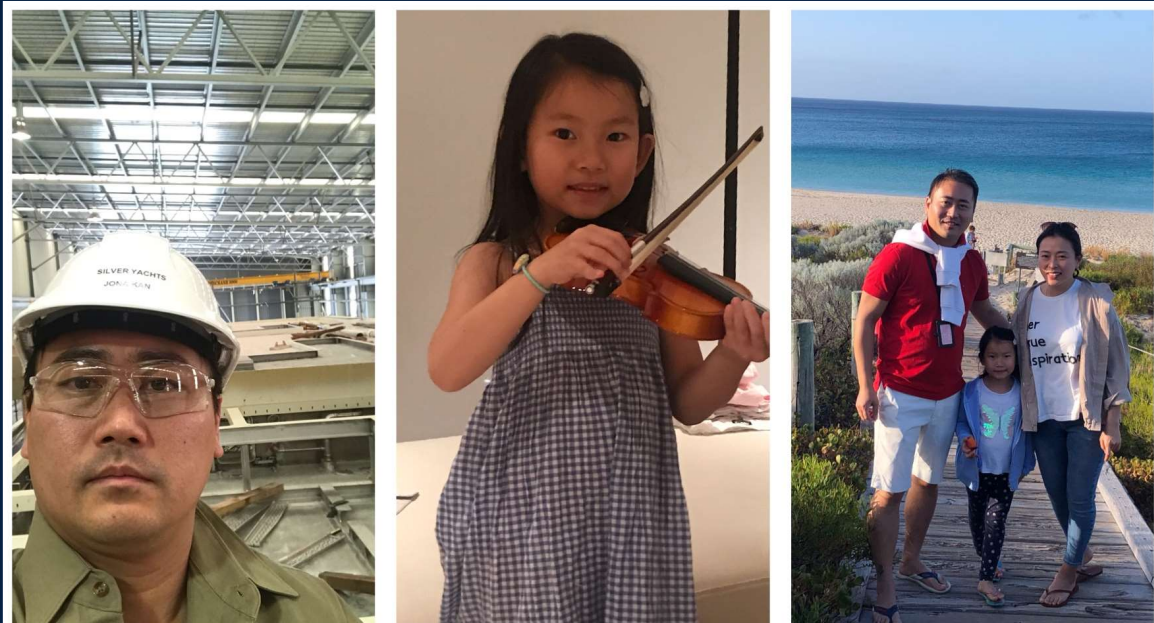

Hi, I am Helen. I am one of teachers for the ECF. The coronavirus pandemic changes people's way of lives; instead of going to church for worship and other activities, we are now connected through virtual meetings for almost everything.

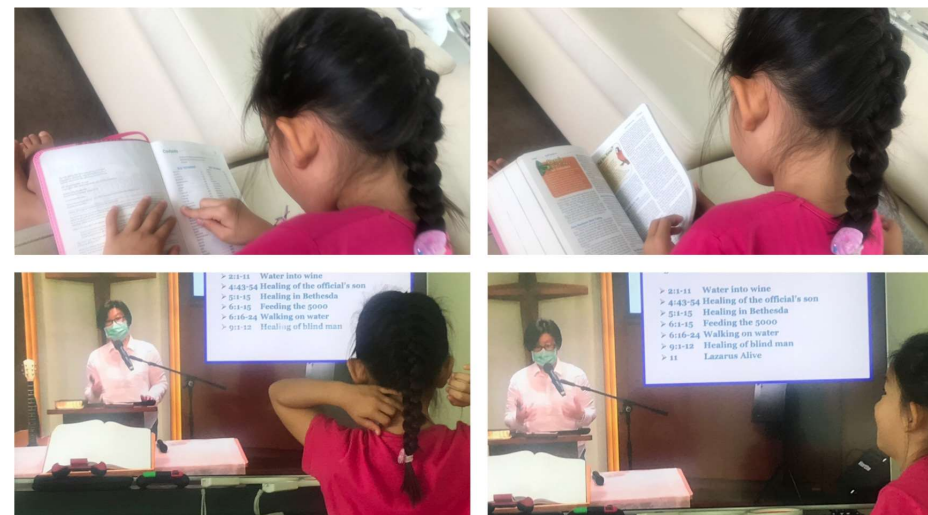

We prayed that God will have mercy on people around the world so that the pandemic will be under control soon, those who are sick will be healed and business & employees can survive this ordeal.

Grateful to be together during these times with Chenny and Leana in Australia. Work to do (I look like a factory manager...) but grateful we can online worship together, enjoy nature (West Australia beaches are wonderful!) and play music (Leana learning violin)
